SUN Bucks provides \$120 of grocery-buying benefits to qualifying school-aged children. Benefits can be used to buy nutritious food during the summer at places like grocery stores, farmers markets, and some online retailers. In addition to receiving SUN Bucks, families also are encouraged to have their children, ages 18 and younger, participate in other federal summer nutrition programs available at no cost to them. More information can be found at SummerMeals4NCKids.org.
